Wednesday Challenge Form

Group Members: Will and me

Problem Statement: Design a capital A using SketchUp. You will receive a capital A from Another group. You will build this A. Grade is Based on precision.

Approach: Make a capital A like this A. It's Easy to build/cut. Then, we will hopefully Receive an easy A to cut.

Solution: We could not build our A. There were Technical difficulties, and we didn't have time.

Lessons Learned: Use your time wisely. Don't Waste it.
